Various types of vehicles are currently known, including convertible motorized vehicles. Most of these vehicles are convertible between a motorized mode and a non-motorized mode, usually having a soft or non-metal top which is moved on a hinge so as to be convertible. Most of these vehicles are not capable of converting from a non-motorized mode back to a motorized mode. Most of these vehicles have no lift capability. There is a need for a convertible vehicle which includes both power lifting and tilting capability. Additionally, such a vehicle needs to have capability to adjust the tilt angle of the top. # Bower [![[NPM Version]][npm-image]][npm-url] [![[NPM Downloads]][downloads-image]][downloads-url] [![[Build Status]][travis-image]][travis-url] [![[Test Coverage]][coveralls-image]][coveralls-url] Bower is a new package manager for the browser.
