

Category:Utilities for Windows Category:Utility software for Windows Category:Data securityQ: The result of write from stringstream is different between C++ and Java, is it platform dependent? I use C++ and Java to do the same test and found the result are different in both case. I checked this: Does any other low-level function like IO::readUTF8 use the same mechanism to fill the buffer as the library std::string? Does Java provide the same guarantee about the format of string as C++? I do the following test: In C++ case, I use the following code to test: #include #include using namespace std; string readStringUTF8() { stringstream ss; char buf[10000]; ss.read(buf, 10000); ss.str(buf); string ret = ss.str(); return ret; } int main() { string _str = readStringUTF8(); cout

Category:Windows password protectorsThe Orrin Tucker Show The Orrin Tucker Show is a California-based radio talk show hosted by Orrin Tucker. The Program Tucker, former president of a radio station in Nevada, began producing his own daily radio talk show in 2004. His program is noted for its no-holds-barred segments, which frequently deal with current political news and current events. The show has recently become the number one talk show in Los Angeles. In 2017, Premier Rachel Notley faces a strong challenge from the same political party, and across the country, to keep the progressive momentum going. But that hasn't necessarily been the case. It's been one long burst of progressive victories, first in British Columbia where the New Democrats' victory in May was historic, then in Ontario with the election of Premier Kathleen Wynne and now in Alberta where Notley will give way to former leader Brian Jean next month. In all three of those cases, the result has been progressive and two in three have been labour-backed. "The year 2017 was a pivotal year for British Columbia, for Ontario, and especially for Alberta and for Canada," said Michael Prince, the president of the Alberta Federation of Labour. "You would have seen more progress but I don't think it's going to be as steep as it was in the first half of 2016," he said. Any progress made in the latter half of the year, he argues, can be credited to two factors: the 2017 NDP platform and the Alberta election. The platform, released in January, included promises on housing and consumer protections that extended beyond the NDP's previous campaign promises, even when they were faced with sharp criticism from their critics. The Wildrose's been at the forefront of the movement to open up the care sector, but have their party positions shifted as a result of the surge in NDP support? Saskatchewan's pivot to the right has been the most pronounced, with its labour movement backing the Wildrose 3da54e8ca3
