Easy to play, hard to master This is not a MOBA. You're not expected to have 100% accuracy in lane and/or have mastered your character to the point of never losing. But what it is, is a high level MMORPG - and exactly the kind of game fans of that genre have been asking to play over the last few years. With 1v1 matches, which means

there's only one person in lane, passing opportunities, items and minion waves, the only things you can lose in the jungle are those really annoying minions. Staying near a ward will make it possible to cast spells. Players will face a plethora of exciting characters, each with their own strengths and weaknesses. A free re-assignment option will let you progress through the game without being locked into your favourite hero. You can play with any character of your choice on any map and against any opponent of your choosing - and even invite a friend to join your single player game. As soon as you start playing, you'll be addicted. There's a large single player mode with plenty of content to unlock. Clear game rooms with a friend to unlock loot crates filled with cosmetic items that make your favorite hero look cooler. Then pick a hero and play single player for hours, unlock more characters and more game modes, buy more cosmetics and see where you can take your favorite hero. [...] Key Features: Delve into classic MMORPG gameplay with 1v1 matches. Create an account that can be used as a single player and/or multiplayer account. Play with any character of your choice - and even invite a friend to join you in your single player game. Pick any hero - no boring repetitive champion line-ups. Free re-assignment option means you can progress through the game without being locked into your favourite hero. Unlock loot crates filled with cosmetic items that make your favourite hero look cooler. Monetize your gameplay - unlock new skins for your favorite hero and buy additional cosmetic items. Replay to earn additional gold and experience. Challenge a friend over the ranked matchmaking system and see who reaches the victory screen first. Play solo on the map of your choice with multiple matchmaking settings to find any opponent. One of the reasons we made DOTA 2 Heroes is the memory of DOTA 1, but DOTA 1 was perfect for that in its own way and we really c9d1549cdd

*** NEW *** User interface improvements, ship variety, and ship specializations! (Important!) We have made some UI improvements and adjusted the player interface to make it more efficient and user friendly. Players should no longer have to make the same last minute decisions regarding ship selection. We have added two new ships: the EG-900/9000 (Mixed DPS, multi role) and the Mediator (Explosive damage, Air Bumping). We have also added a custom-made Federation 7-meter Cargo Freighter as the second choice in the freighter category. Freighter capacity is reduced. Also, you can no longer switch ship during combat. We've also added a new ship specialization mechanism. This allows the user to assign two crew and two weapons. We have also added the ability to create your own ship with the custom ship creation system. We hope you enjoy these improvements! Please let us know how we can improve the experience in the future.

New User Interface:

- The weapon and crew screen are now in one screen, with one log-out button
- You can now assign two weapons to your ship: Right Click (hotkey: F3) to use a secondary weapon, Left Click (hotkey: F4) to use a primary weapon
- You can now add up to two crew members to your ship. You can only assign one player in a crew slot, but you can assign two weapon systems to the ship. Right click (hotkey: F3) to use a secondary weapon and Left click (hotkey: F4) to use a primary weapon

Additional ship screen items:

- Details screen: Clicking on a detail gives you a preview of the ship's properties and a button that allows you to jump straight to that ship's configuration screen
- Config screen: Clicking a property will open the configuration screen for that property. If you have assigned the property to a weapon, the text that represents that property will also appear in the weapon's text box
- Status screen: Clicking the status button opens a menu with all the ship's in-game status information
- In-game map of the ship: Hovering your mouse over a location on the map will give you a popup box that gives you all of the available destinations in that region

The "Ship's Menu": *** NEW *** - Up to eight ship specializations. These ship specializations are applied to the ship and enable a ship to excel in one or more of the three major categories of

The world is beautiful, but full of danger. Or...was. It's a period of chaos and unrest in a once peaceful world. It's up to you to help rebuild the community by collecting resources, tools and buildings to get your community moving again. Pathfinder is a tabletop roleplaying game (RPG) designed for creative people who enjoy making their own adventures, stories, and characters. This is an entertaining and fast-paced game for 1-5 players, but does not require a background in RPG's to play. The goal of Pathfinder is to create a game that can adapt to any group and environment, but also one that fits its own original campaign setting. The Pathfinder setting for 2nd edition is rich, and has a lot to offer for experienced players. A simple system is used, with simple rules, but perfect for anyone who wants to try their hand at creating their own game or a new campaign. Only the rules of the first chapter will be presented at this conference. This will allow us to discuss the basics of character creation, introducing a simple combat mechanic, and also covering how resources are handled in Pathfinder. So join me on Friday the 22nd of February for this exciting 5 hours of teaching and roleplaying, I would love to see you there. Ondrej Benda We invite you to party with us in our fantasy life!
