A: Assuming your stated region 1 disc is not region free: A look at this page shows that the game is region free. That being the case, you can either try to use a region-free player (e.g. Windows Media Player) or use a bluray player (e.g. TranscodeMaster) to transcode the file. Both of these will also convert the audio track. Q: How to delay email sending in PHP? I am working on an application with email notifications and currently looking for a way to send email in PHP but with the ability to delay for a certain amount of time before the email is sent. I know there are multiple ways but the application I am working on will send and email to users but I need the email to be delivered after a certain amount of time after it was sent. The email may be sent to a user at any time and time interval is required. A: If it is a one time, regular process you can use the built in PHP mailer. set\_time\_limit(0); If it is a continuous process you can use cron jobs. Q: How to find the top-most page when the link is a little above the top-most page? I have a web page and it contains something like this: abc abc abc abc I want to find the top-most li.abc element so I can transform it into a button. This is my attempt: var \$list = \$('ul'), \$li = \$list.find('li'); \$list.each(function(){ if(\$li.find('a').length > 0}{ var top = \$li.index(\$(this)).index(\$li.find('a').eq(0));
