XLaunchpad Crack+

XLaunchpad is a small utility that provides you with the ultimate space for hiding the desktop and launching programs, shortcuts, URLs, folders, etc., with zero delay or inconvenience. Of course, the app features a search feature similar to that of OS X, so that you can access whatever you want, as

quickly as possible. You should be aware of some of the features available in this tool:

- A translucent layer supports transparency
- Icon and shortcut insertion
- URL support
- Drag-and-drop support for icons, URLs, and folders
- Automatically loads up by default
- Clean and easy to use

• Very small but highly capable! Feel free to submit your own comments and feedback. Note that any support requests should be sent directly to the author instead of here.
