want to create some amazing effects for your photos this is a free photoshop plugin that can produce interesting results. it has five

---

different effects that can be used to create your own style. it has a few options you can customize, such as the strength of the effect, color balance, and saturation. another option is to use the free webimage service. it works similarly to portraiture, in that you can search for topics related to the keywords you enter. but unlike portraiture, webimage is a web-based service. all you need is a browser to use it. portraiture's interface is pretty easy to use. the search box will filter the results, and a few mouse clicks will take you to your results. you can access your search results one by one, or in batches. the webimage service is also fairly simple to use,

---

but it does have a few flaws. its search results don't show as many topics as portraiture's, and it doesn't automatically apply retouching to images as portraiture does. it doesn't offer the same variety of filters, either. however, it does have a pretty simple interface. portraiture and webimage are both fairly similar services. both let you search through the web for related images and topics. but there are a few key differences. with portraiture, you can search for and download images as well. the web interface is also more likely to let you control the number of images it returns, but it's still fairly easy to manage. a little-known filter in the

---

world of photoshop is the one that enables you to create a mosaic effect from your pictures. you can use it to create large pieces of art or a picture collage from your photographs. all you need is an image file that can be opened in photoshop. 5ec8ef588b
