What's New in the Netwriter?

Netwriter is simple and most powerful program for instant messaging and inter-user communication on the Internet. It is one of the simplest programs for these purposes, because it has basic functions of real instant messaging and messenger program - support of several users, possibility to read and/or send messages, file transfer (images, sounds, text), text chat, in-line commands, user-agents, rich media (sound, image, video) and "send later" function. This program is free. What's new in the 2.0 version: -Change of the appearance. -Support of the new image format. -Support of the new audio format. -Support of the new video format. -Support of the web-camera. -New category system. -New web site. -The ability to choose (from one to all) the "user-agents" with possibility of setting up

the rules for this system. Download: NETWRITER.EXE (3,6 Mb) -Also, there is ZIP archive of entire program. -Also, there is MANUAL archive of all user manuals. Installation: Run NETWRITER.EXE and press "Install" button. Run NETWRITER.EXE.exe. Click "About Netwriter" button. Click "Extract" button. The folder, where you want to extract Netwriter will be created. Select the "Program" folder. NETWRITER.EXE will be extracted. Release history: Version 1.0 - 18.09.2003 ☐ Assembled from freeware version of old version of "Muffin-T" and "Netchat" programs. ☐ Thanks to anonymous volunteers! ☐ Thanks to marckewl. Version 2.0 - 17.11.2005 ☐ Bug fixes. ☐ Fixed the problem with the rules that not work correctly with the "user-agents". ☐ Fixed the problem with saving of messages. ☐ Some new controls appeared. ☐ New category system. ☐ New function of "load user-agents" (from one to all) by administrator. ☐ The ability to choose (from one to all) the "user-agents". ☐ Support of the new image format. ☐ Support of the new audio format. ☐ Support of the new video format. ☐ Support of the web-camera. ☐ 3 new controls appeared: ☐ Next: scroll controls to receive new messages; ☐ Previous
