Q: Multiple IF Statements and OR Condition in python I have a simple if and else condition. # if variable1 is not equal to 1 and variable2 is equal to 1 or variable2 is not equal to 1 and variable1 is equal to 1 and variable1 is not equal to 1 # then do if var_1!= 1 and var_2!= 1: print 'do something' # else do if var_1!= 1 or var_2!= 1: print 'else' # end This is just a single line but I want to do this in a single line. Is it possible? A: You need or and and. If you do or, it's as if you're doing and. if var_1!= 1 or var_2!= 1: print 'else' I am pretty sure or only works in python 3.x. I think I recall that it is not in python 2.x A: With and and or: if (var_1!= 1 and var_2!= 1) or (var_1!= 1 or var_2!= 1): print 'else' if (var_1!= 1 and var_2!= 1): print 'do something' else: print 'else' A: Also, if var_1 and var_2 are (and really should be) both integers, you could just do: if var_1!= 1 and var_2!= 1: That will evaluate to false if either is true, which means your logic will not be executed. The

Clippers are moving forward with their bid to play in Inglewood and putting a priority on adding a superstar, which means they could be parting with
